

**Instructions for application form,
application for qualifying exam, Common Nordic Education Programme on
Diagnostics of Hereditary Diseases of the Eye in Dogs and Cats**

This application form must be completed only at the first time of application to sit the written (theoretical) and practical tests. Applicants, who have applied previously but not passed these tests should contact the Nordic Eye Examination Committee to find out what credentials need to be submitted to apply for re-examination

Items 1 – 6 require no special instructions

7. Circle all countries in which you are holding a current practice license.

8. State your small animal education. Enclose a copy of the certificate of your degree (or degrees) and mark this copy (copies) "Item 8" in the top right hand corner.

9. State all continuing education courses and other educational activities that you want to claim as credentials. For each item stated, enclose a copy of the certificate of attendance. Mark all such copies "Item 9" in the top right hand corner and enumerate them 1, 2, 3. etc, in the order they are given on the application form.

10a. State participation and year of attendance for the three courses mentioned.

For each course attended, enclose a copy of your certificate of attendance. Mark the copies "Item 10" in the top right hand corner.

Certificates of attendance may not be available for courses given in 2000 or earlier. In such cases, state "Listed by NEEC" on the application form, as the NEEC will be able to confirm attendance of these courses.

10b. State the year of all national and Nordic panellists' meetings attended, e.g. national 1997, national + Nordic 1999, etc

11a. Quantitative training requirements. Copies of your list of all cases seen must be submitted.

The list must be summarized on a separate sheet, as indicated below:

- a. the total number of animals listed must be stated
- b. the number of cases seen under the auspices of an ECVO or ACVO diplomate must be stated. All such animals must be identified by listing their numbers from the list of all cases seen.
- c. The number of cases seen under the auspices of a panellist accredited by the ECVO must be stated. As all Nordic mentors are accredited, this will necessarily be more than the required 400 cases. Thus, it is sufficient to state "more than 400". These cases need not be identified by their numbers.
- d. The number of cats examined must be stated. At least ten cases have be seen under the auspices of an accredited mentor.
- e. The number of gonioscopies performed under supervision of panellist must be stated.

Mark all this material "Item 11a" in the top right hand corner.

11b. Qualitative requirements. A copy of your list of the qualitative requirements fulfilled must be submitted. For each item on the list, the number of cases entered must be summarized and noted in the left hand margin of the list.

Mark all this material "Item 11b" in the top right hand corner.

12. Comments: Space for any additional comments necessary. Please be brief.
